

PETITION FOR STREETLIGHTS

I, the undersigned resident of Creekside Subdivision (Highlands, Fairways, and Orchards) desire to have the electrical cost of the streetlights in our subdivision turned over to my individual water bill. I understand a charge of \$4.00 per month will be added to my WATER BILL each month to cover the cost of monthly electrical charges from the power company.

Note: Most residents are already being billed this \$4.00 charge on their water bill and will not be billed an extra \$4.00. All residents of Creekside must sign this petition in order to get the other 20% of homeowners to pay their portion of the streetlights. Presently, the HOA covers the remainder of the streetlight electrical balance which totals about \$7,000.
